

## FAQ

**Q** What heater should I choose?

**A** Leave it to us!  
We will listen to your needs and suggest the most suitable heater.

**Q** Can we meet on-site?

**A** Of course, we will accompany you.  
We can visit anywhere in Japan.

**Q** I'm having a problem right now,  
what is the delivery time?

**A** We have heaters that can be shipped on the same day.  
If you order by 3PM, we will ship the same day.

**Q** Can I order just one heater?

**A** Yes, we accept orders for standard and made-to-order products, starting from just one piece.

**Q** Do you have samples?

**A** Yes, we do.  
Please contact us regarding types.

## What to prepare and how to use?

### Case 1

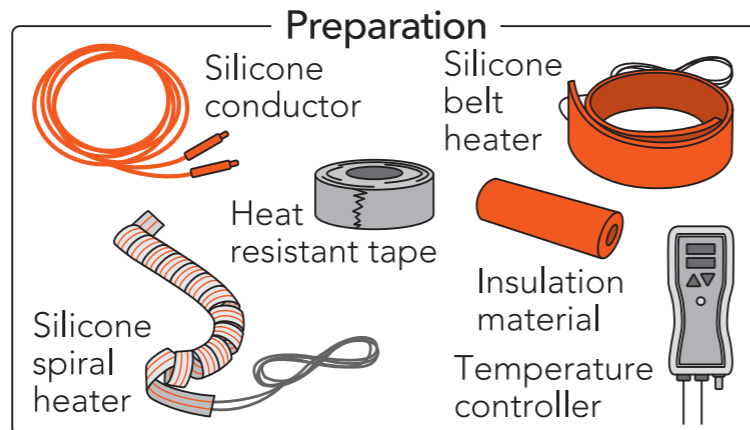

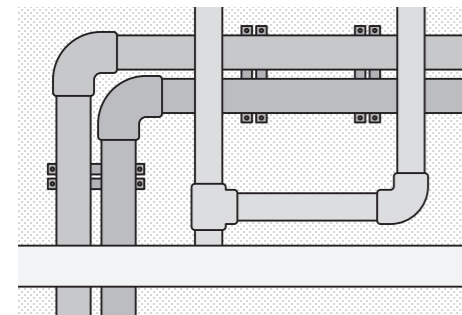

For hopper tanks (funnel Shape)  
Warming · Insulation heater

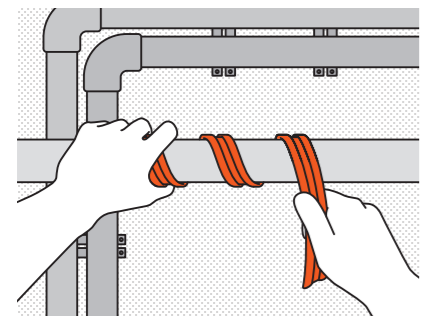

# What to prepare and how to use?

## Case 2

### Freeze preventing pipe heater

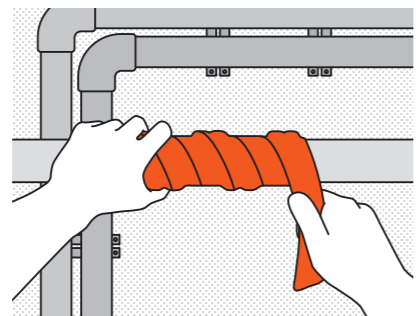

① Wrap the heater around the piping

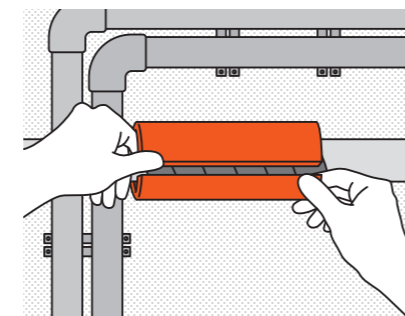

Silicone belt heater · Cord heater, etc.

② Fixed with heat resistant tape

Silicone tape · Aluminum foil tape, etc.

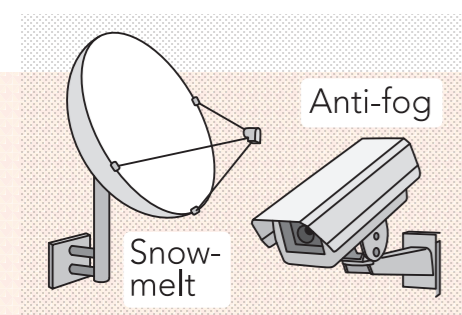

③ Insulation to retain heat

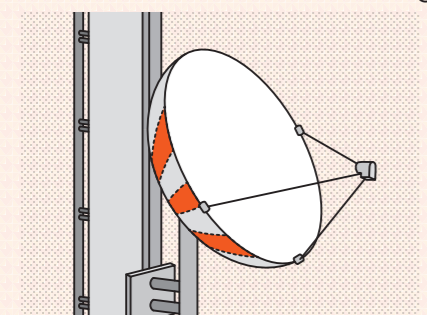

Silicone Sponge · Glass wool, etc.

## Case 3

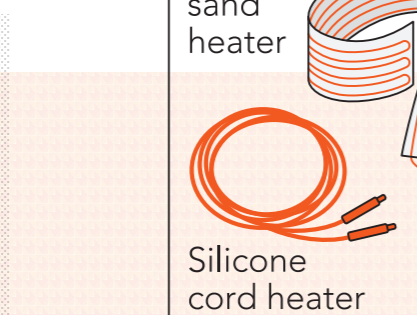

### Snow-melt · Anti-fog & condense

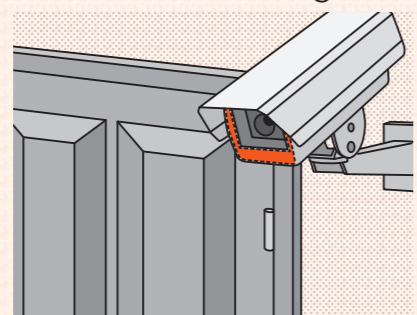

Parabolic antenna · Snow-melting

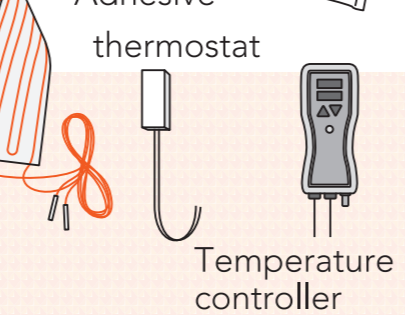

Heater attached to back of the antenna to melt snow.

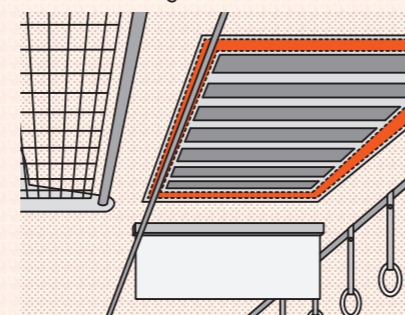

Camera lens · Anti-fog

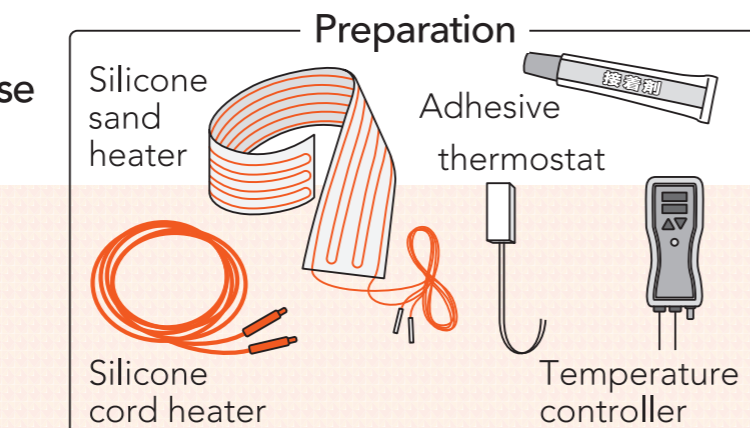

Paste the heater around the lens, to prevent the lens from moving.

Air conditioning · Prevents condensation

Heater installed near the air conditioner outlet to prevent condensation.

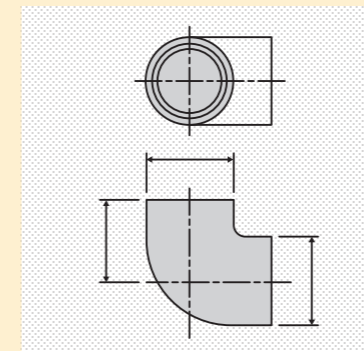

## Flow from inquiry to heater production

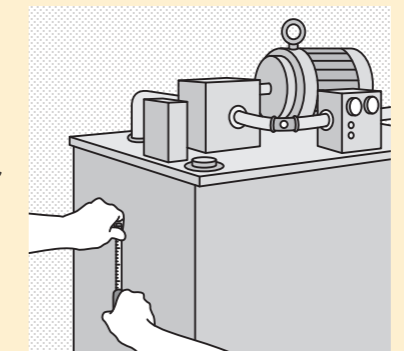

There are three main ways to make a request.

First, we will ask you about the purpose of the heater, and the shape and size of the object to be heated.

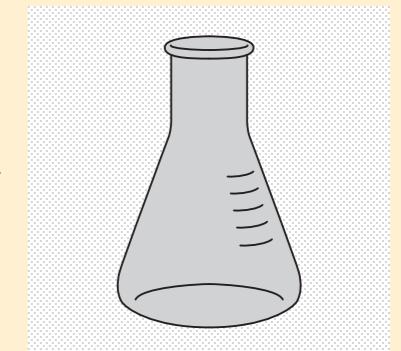

① Drawings

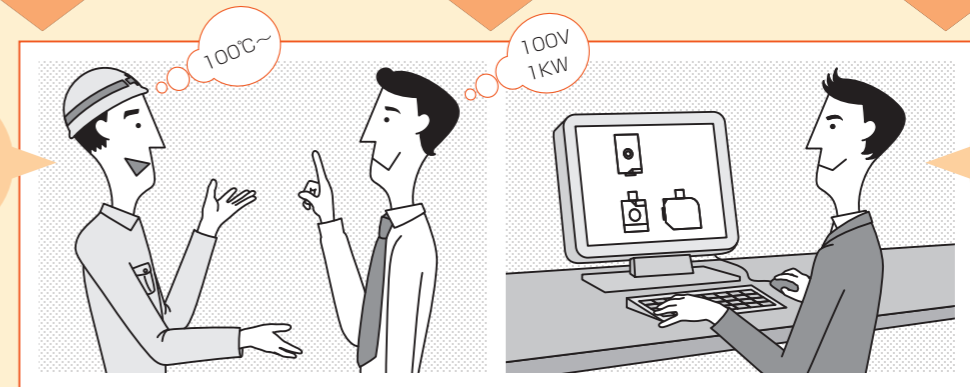

② Visit to take measurements

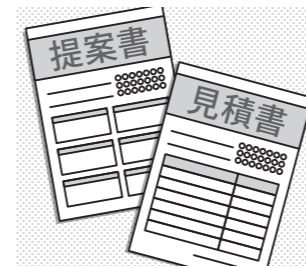

③ Supplied item
